

Title: Work Glove  
Application Serial No.: 10/670,859  
Dkt. No.: ZM339/03002

**REMARKS**

Claims 1-10 remain in the application.

Upon a review of the patent application after receipt of the Notice of Allowance, it was noted that there were some typographical errors that appeared in the identification of specific parts within the application. Specifically on page 29, lines 20 to page 30 line 1, reference is made to the long finger, the ring finger and a small finger. Identifying numbers for these fingers, as originally filed, were 412, 414 and 416; however, in the drawings the long finger stall is identified as 412, the ring finger stall is identified as 414 and the small finger stall is identified as 416. The proper identification of these fingers in accordance with the figures is the long finger is 66, the ring finger is 67, and the small finger is 68. The amendment to the specification for this paragraph which starts on page 28, line 11, now reflects this correction.

Moreover, upon review of the claims, it was noted that dependent claims 7 and 8 depended from amended claim 5 whereas they should have depended from independent claim 6. Also, claim 9 should depend from claim 8, not claim 7. The amendments to the claims reflects these corrections.

Applicant submits that this aforementioned amendment is merely for clarification purposes and does not in any way effect the issued claims in this case.

Title: Work Glove  
Application Serial No.: 10/670,859  
Dkt. No.: ZM339/03002

Respectfully submitted,

Dated:

July 7, 2005
